CD351:Reisch: I'd appreciate full copies of these pages for poss later reproduction. This fairly clearly indicates FBI feed, which is Reisel's history. It is also, if true, as I believe likely, in itself interesting and I'd like to use in AO. His bit on Ruby almost shouts, "in the FBI". Bear in kind that Weisel is blind, having been blinded, as I recall, by labor racketeers. He then went from phoney liberal to fairly far right.

CD351-Pholbrick reprint: This is and has been one of his sources of income. Again I'd appreciate full-size copies again for poss AO use and because this print is too small for me to read without magnification, which is awkward and uncomfortable and quite time-consuming. If in the piece from the New Guard there is anything you want followed, one of my friend/haters in the ridical right is a contributor and I can follow through him. But the type is so small I haven't read. By the way, Phil, one way I can repay some of this is if you know anyone who wants any of the books I've printed myself. If you do, let them pay you and since I've either already paid for them or still owe the printer for them and can't return them, I can, without touching my pocket for more than postage, send....With this I'll be sending all the way to JHS. If you have told me how to date declass FBI to by 10/1, I've forgotten, unless it is on first page, in which case I'll find it. When I find that and add this to it. Glad I've been able to go through all these pp, but I didn't expect to. Had to take car to garage and expected to have to stop then naturally to take return-driver back (this is in the country), so I've been working on pieces. Added emphasis: I am impressed by possibility of criminal seriousness. When you have all of that you expect, I'd appreciate, with citations of which you may know, for I'd like in second part of a chapter for AO for that. This, with what I think and have, may justify chapter. Don't take my word for it that it has to be this way, but ask yourself, supposing it is? Reread her first interviews and relations, that long interview, what I sent on her relations with the SS and Martin and Wobert, and see if you can agree on possibility, and, if possible, when taken with specific FBI threat, what it could have meant to her, esp. when SS said they'd make her rich. Thanks, HW.
